School in Melbourne, VIC At the heart of our engaged, dynamic and inclusive community, St Catherine's School nurtures young women, to be bold and creative, independent and resilient, and who are intellectually and spiritually prepared to contribute to a greater good and an enriching life both within and beyond School. Established in 1896, our reputation as a leader in girls' education, for well over a century, is based on our readiness to embrace innovation. Our goals are in keeping with our founders' original aim to prepare students for life; not only through education but also empowering girls to take ownership of their learning through active participation and engagement in School academic and co-curricular programs. St Catherine's School accepts girls from Prep to Year 12 and is centrally located in Toorak, Melbourne, Australia. We also welcome three and four year old girls and boys into our Early Learning Centre. As a non-denominational Christian school, with boarding for rural and international girls, our community of students, staff, families and past students is actively involved in the life of the School. To know and value each of our students St Catherine's maintains small year levels and class numbers. Our size, along with our one campus advantage ensures all our students – from our youngest in Early Learning Centre to our VCE students – learn in one central and encouraging community. We enjoy a reputation for academic excellence, a supportive community, an outstanding co-curricular program, exceptional teachers, fine facilities and established alumnae networks and yet we believe our greatest achievement is the quality of character which students of St Catherine's exhibit.
