University in Sydney, NSW Uniquely located in the heart of Australia's largest high-tech precinct, Macquarie brings together more than 40,000 students and 3000 staff in one thriving hub of discovery. Our campus spans 126 hectares, with open green space that gives our community the freedom to think and grow. More than AU\$1 billion has recently been invested in our facilities and infrastructure so our students and staff can thrive in an environment that is inspiring and switched on to the latest digital technologies. With more than 100 leading companies located on or around the Macquarie campus, our students are able to tap into industry connections that give them an edge in their future careers, while our staff have access to outstanding research and innovation opportunities with some of the world's leading organizations. While only 50 years young, Macquarie has risen to be a progressive and influential institution both locally and internationally. Many of the best universities across the US, UK, Europe and Asia choose to partner with us, as do global organizations such as Microsoft, Optus, Google, and Johnson & Johnson. Such partnerships are testament to our reputation as a university that produces research, and learning and teaching innovations that are world class. Macquarie is bold and innovative. Unconstrained by tradition, we take a pioneering approach to research. Such an approach is largely responsible for our enviable reputation for research excellence – 100 per cent of our research is ranked at world standard or above and more than 100 of our researchers are ranked in the top one per cent of researchers in the world. And, with a strong tradition of innovation and exploration, we continue to break new ground, ranking among the top 100 institutions in the world for accounting and finance; communication, cultural and media; Earth and marine sciences; education; English language and literature; geography; law; linguistics and psychology.
