Pet Care in Darwin, NT Our aim is to provide residents across Darwin with a professional, personalized, registered and insured service that I would use for my pets. Whether you go on a holiday trip, busy working long hours, in bed due to illness or simply need a house sitter for your furry friend, Lonely Dog at Home Pet care is the perfect solution. Our services include feeding, walking, grooming, doggy-doo cleaning and lots of cuddles. We can also provide other services like bringing in the mail, putting bins in or out and watering the plants. If you are more comfortable hiring house sitting for someone to stay at your home, we can arrange that as well. We offer great services to every one of our clients (human AND furry ones!). We offer in-house care so you do not have to worry about anything as you go on with your busy day. Lonely Dog does not even need to enter your home, as entry will be made through your gate only. I understand it can be difficult to leave your pets in the care of a complete stranger but it is my personal promise to make every effort to ensure you and your pets are as comfortable as possible before you leave, even if this means more than one consultation. Lonely Dog wants to offer you an alternative to leaving your pet in a kennel where they may not be as happy as if they were in the safety of their own backyard. Also you won't have to worry about giving them various injections or worry about them getting fleas or ticks in a kennel, because at Lonely Dog we will give your friend almost the same care you would give her yourself.
