Beauty Salon in Broome, WA The Beauty Room is a small, home based business located in beautiful Broome, WA, owned and operated by beauty therapist, Lee Jones. The Beauty Room offers a wide range of beauty services from waxing and tinting to more advanced treatments such as IPL Hair Reduction, Microdermabrasion and all that's in between. Lee prides herself on providing a consistent, high standard of personalised service at an affordable price. She has many years industry experience and loves being able to pamper and groom her clients according to their specific needs. The Beauty Room's philosophy is that beauty is for everyone and its important to take time out for one's self to rejuvenate, recharge and spend a little time on number one. It's nice to feel beautiful on the inside and out. In the words of our therapist: "I love my job. One of the best parts about it has to be my wonderful clients. I'm so lucky to get up every day and enjoy what I do. It's so rewarding to help someone with an insecurity that once made them feel self conscious and turn that into something they no longer have to worry about... Or give them ways to manage it and let them know there are treatments available to help. It's important to me to encourage taking some time out and spending it on yourself without feeling guilty. I strongly believe that stopping for '5 seconds' and breathing, laying down, relaxing, getting some pampering or whatever it may be is only recharging your batteries, mind and soul and aiding you to be less stressed, feel more positive and allowing you to continue on with your day as a mother, wife, traveller, friend or colleague with strength and a smile :)
