Child Care & Day Care in Sydney, NSW Early childhood is a time of great discovery and growth when the foundations for life and a love of learning are formed. This is why our child care centres are designed to be stimulating, natural environments that foster a sense of wellbeing, wonder and belonging. Our dedicated educators work closely with families to provide a caring, fun and creative place for children to develop lifelong skills and a positive attitude towards learning that will remain with them throughout their lifetime. Importantly, our day care centres are inclusive and reflect the diversity of the communities children are an important part of – as well as the individuality of each child. Learning begins at birth, and a child's learning and development at each stage of life forms the foundation for the next. During the first five years, we know that children experience more rapid brain development and acquire more skills and knowledge than in any other period in their lives. It is for this reason that we at Mission Australia Early Learning so passionately believe in the importance of investing in these formative years. Our centres can be found in New South Wales, Victoria, Queensland, Western Australia and the Northern Territory.
