Pest Control in Melbourne, VIC Pests in a domestic home are not only annoying, they can cause severe structural damage and pose health risks to you and your family. At Dawson's Australia we put your family first with safe, quick, and thorough pest treatment with reliable preventative solutions. Once we have taken the time to understand your needs and determine the best solution, our experienced team will explain the process and guide you every step of the way so you know exactly what to expect. Our treatments and products are pest specific, and not harmful to humans or pets. Your family can rest a little easier knowing your pest concern will be treated with the highest quality products in a safe, environmentally friendly method. Your home is your most important asset – keep it protected! With over 50 years of experience, you're in safe hands with Dawson's Australia. All treatments are carried out by friendly, well-trained, licensed, professional pest technicians. We always follow the Australia standards where applicable and use only the highest quality products to ensure your pest problem is treated thoroughly. Our professional pest technicians are trained not only to treat the pest problem but also to look at the cause of your home pest problems. They will take the time to understand your concerns and provide feedback and recommendations on how to minimise pests in and around the home. All of our professionally trained and experienced technicians take care when carrying out treatment at your home and will work with your family to accommodate any needs.
