Rubbish & Waste Removal in Launceston, TAS Established and listed on the Australian Securities Exchange (ASX) in 2000, Toxfree has experienced substantial growth during this time, achieved through acquisitions, new green-field developments and the organic growth of our existing businesses. Back in 2000, we employed 20 people, and operated from two locations in Kwinana and Port Hedland, today Toxfree employs over 1600 people and provides national services from over 80 locations Australia wide. A new classroom safety campaign, targeting Australia's most vulnerable pedestrians, is being rolled out nationally by Volvo Trucks and Toxfree, to help keep Aussie kids safe in their hometowns. Our vision is to be the leading Industrial Services and Waste Management Company with a true focus on; safety, reliability and sustainability. With an excess of 57 locations nationally, including operations established in all regional resource hubs across Australia, Toxfree is ideally positioned to provide services to our customers on both a local and national scale. As a Values driven organisation, we understand the importance of ensuring effective governance to protect the interests of our investors, the community and our team. Our commitment and vigilance to a Harm Free culture have resulted in external recognition through a number of awards. Toxfree's behavioural based safety mantra is 'Harm Free'. It is engrained in the culture of the business and is focused on the principles of; exceeding customer expectations with no harm to people, no harm to the environment, and no harm to resources. These are the values that are built into every activity undertaken.
