Trophies & Engraving in Sydney, NSW Corporate Awards Australia specialises in Awards and Recognition, and Promotional products. It started with C.R. Warne (Trophies) Pty Ltd has been operating since 1954, and in that time has been servicing the needs of Major corporate clients nationally; Sports associations, organisations and clubs; Presentations to schools, churches, legal and government bodies; and Small organisations and social clubs. This most traditional method of engraving utilises small refined tools and burs to achieve superb finishes with that old fashioned effect. Automated machine engraving is cutting edge technology. We have a variety of machines on site which are capable of the producing your designs onto any surface (including stainless steel). Logos on trophy cups, names on medallions, commemorative plaques, and commercial/industrial signage. Laser technology can produce high-quality results, quickly and easily onto most non-reflective surfaces. The technology basically works in a similar way to a printer, syncing with graphics software to reproduce your designs into the specified media. Using lasers can also open up many design options such as cutting custom Perspex shapes to suit your awards or project. A versatile & inexpensive alternative to engraving, sublimation allows us to reproduce your artwork, design, photographs and corporate logos in full colour on a range of surfaces. Predominantly we use sheet aluminium, which comes in a range of colours (Brushed & Mirror Gold, Brushed & Mirror Silver, Copper, White, Anodised Silver), and a variety pre-cut shapes. All artwork and design is done in-house, we use the latest in graphics software to prepare designs in accordance with the process being used to produce your order. Have you got an old trophy cup that needs restoration?? Our skilled staff will be able to repair most damage. We also refurbish old perpetual trophies and give them a new lease on life, ready to accommodate the next generation of
