Flying School in Mentone, VIC Australian National Airline College offers a number of pilot training courses to prepare you for a professional Airline Career or for recreational flying. If you want to fly professionally you will need at least a Diploma of Aviation (Commercial Pilot Licence). Most students aiming for an Airline Career choose the Diploma of Aviation (Commercial Pilot Licence) and Diploma of Aviation (Instrument Rating) course. Our Professional Flying Instructors will train you to the highest standards required for an Airline Career. Our graduates get the jobs and now fly for major Airlines throughout the World. Diploma of Aviation (Commercial Pilot Licence) and Diploma of Aviation (Instrument Rating). This course includes Private Pilot Licence, Commercial Pilot Licence, Multi Engine Endorsement & Multi Engine Instrument Rating. This is our most popular course with overseas students wishing to prepare themselves for an airline career and provides the minimum qualifications required by most airlines. Diploma of Aviation (Commercial Pilot License) This course includes the Private Pilot License and allows you to work and fly under Visual Flight Rules. This is suitable for some jobs however most employers will need you to have an Instrument Rating. Diploma of Aviation, partially completed for issue of Private Pilot Licence This is a recreational licence only. You cannot secure a job and be paid to fly with this licence.
