Flying School in Brisbane, QLD The Academy is Australia's only fully integrated flying and aircraft maintenance engineering school. We provide contemporary and professional aviation training services across a number of industry disciplines for domestic and international cadets, Queensland secondary schools and universities, airline customers and self-funded students, including rural, regional and recreational aviators. We are a leader in the provision of innovative flight and aircraft maintenance training solutions and embrace the latest technology and leading edge training methodologies to ensure we continue to produce the very best pilots and aircraft maintenance professionals. Committed to the highest standards of training excellence, our organization is managed by some of the industry's most experienced aviation professionals, who are dedicated to transferring their considerable knowledge to our students and developing students' skills to the highest level. Few organizations can boast such a rich aviation history. The Academy was founded by the Royal Queensland Aero Club which has been in existence since 1910 (when it was known as the Australian Aero Club - Queensland Section) and counts aviation pioneers such as Bert Hinkler among its early members. Today we continue to strive to provide the industry with the next generation of aviation professionals; people of whom our founders can be proud and who will lead us into the future of commercial aviation locally and internationally.
