Astrology, Spiritual & Genealogy in Flagstaff Hill, SAWelcome to the Astrology Matters website which is dedicated to the pursuit of the authentic use of astrology. Astrology will expand your consciousness in so much as you must come to terms with who you are, what you believe and how you might contribute to and find your place in the world. In other words, one discovers the good, the bad and the ugly! Understanding creates acceptance. Acceptance of self-creates empowerment. Empowerment becomes a platform for continuous growth and evolution. Astrology can be used for almost anything however we generally categorise astrological practice into several core areas they are: Natal Astrology (modern psychological astrology), Synastry (relationship astrology), Electional (event astrology) and Horary (traditional astrological divination). Astrologers interpret the horoscope symbols and the relationships they have to each other in terms of human behaviour. In essence, the natal horoscope suggests at how you are hard-wired, your strengths, your weaknesses (yes, I did say weaknesses!). We also use the horoscope as a basis of understating about how you are evolving and using your potential. Relationships deserve a special mention as they seem to be either a great source of joy, pain or frustration. Synastry describes the unique ties that exist between people and identifies both the strengths and weaknesses. Most people are interested in understanding more about their significant other however you can do relationship charts for parent/child, siblings, boss/subordinate. With relationship charts, in particular, we look at attraction and endurability, and there are some 26 points of comparison.
