Building Society in Newcastle West NSW 'Here for good' is more than just our advertising slogan, it reflects who we are. As a mutual building society, we have no shareholders to pay. Instead, we return our profits to our customers and the regional communities we operate in through better interest rates, competitive fees and financial support through our community involvement and extensive sponsorship program. We are proud to employ 900 dedicated staff and have more than 320,000 loyal customers. This makes us the largest building society in Australia. Join us and enjoy a career doing something you love that provides real value to your local community. Newcastle Permanent is more than the largest building society in Australia. We offer a range of career opportunities as a large retail banking employer within the Hunter region. Newcastle Permanent is a great place to work. We live by our values, and everything we do is driven by our desire to improve the lives of our customers and the community. Achieve a positive work/life balance whilst spending your days with friendly, talented and driven people just like you. Keep healthy and active with an organisation that supports your well-being through discounted gym memberships and health insurance and an employee assistance program. Make a difference using your two Community Days each year and assist a local charity of your choice, or get involved with our Community events. Join us at our Newcastle-based headquarters, or branch network that extends from Newcastle and the Hunter Valley right through regional NSW, and everywhere in-between.
