School in Toowong, QLD On the surface all schools are the same. Each provides an education for children. It's not until you look a little closer that you realise how different each school is. Just like your daughter. She is different to the next girl and deserves an education specific to her needs, interests and aspirations. Stuartholme's mantra is "to be the best she can be" and it's something the staff and students live by. Its meaning is derived from the way each student is treated, not as a number, but as an individual person. As a progressive international Sacred Heart School, Stuartholme School is committed to educating the whole person. Our rigorous academic program together with our supportive learning environment teaches resilience and self-value where every student feels confident in her ability to contribute to our global society. The School prides itself on being small enough for each student to be personally known, yet large enough to offer an extensive, ever-changing and dynamic range of opportunities. Stuartholme educates every girl to reach her full potential. The School provides a supportive and inclusive learning environment where each girl's gifts and talents are extended, nurtured and challenged through an individualised educational programme. The School's progressive curriculum is supported by technology used to identify the learning needs of every student. Our expert staff then provide the resources to either support or extend, and challenge students to optimise pathways for their future learning.
