Concrete and Cement in Adelaide, SA Outback Sleepers Australia started working since 2000, offering friendly and helpful advice to every one of our clients, along with an expert team ready to solve your every doubt. We pride ourselves on being a well-established and reliable company that always deliver high quality results. We specialise in concrete sleepers which are easy to install and long lasting. Outback Sleepers offer precast concrete wall panels and coloured patterned concrete sleepers to suit any landscape from modern garden designs to complete retaining wall systems. No job is too big or small. Our main products are Sleepers, Panels, under fence plinths, Steps, Steel upright and Concrete sleeper. We specialize in products for professional landscape design and retaining wall solutions. There are a wide variety of patterns and colours available - something to suit every home and style, and our versatile and attractive products will complement any garden design - from Zen garden landscaping to the classic Australian home. The only limit is your imagination! Our concrete retaining wall sleepers are durable and manufactured to withstand the rigors of the Australian climate year after year, just give us a call and you will see our professionalism and reliability.
