Eyelash extensions at The Lash Spa in Varsity Lakes (on the Gold Coast) are better than other salons because of 3 key reasons. First, we use professional grade quick drying glue. This allows us to use far less glue for the same strong bond as other salons, in a much faster time. So the same set that might take 2 hours or more at another salon could take just 60 minutes at The Lash Spa - PLUS you'll get a more natural result because the glue is never visible - you may have seen clumpy glue from other salons and be worried (see the 'repair' section of our website). Second, our salon uses an advanced humidity control system which makes a big difference to the glue curing process. Between 55 and 70% humidity the glue dries perfectly. Outside that range it doesn't, meaning the extensions won't last! It's extremely important but often overlooked by some salons. We use dehumidifiers when it's too humid, and humidifiers when it's too dry - all operate automatically to keep the lashing environment perfect - we're the only salon to have this system in place. Third, we provide a relaxing experience from the moment you walk through the door. Everything is designed to calm and relax you because we believe that eyelash extensions shouldn't be a clinical procedure like at some salons. Instead you should leave feeling refreshed and beautiful, ready to tackle the world!
