Tutoring in Canberra ACT Canberra Tutoring offers support in most subjects, from Infants, Primary and High School, on to College and University level. Subjects covered include maths, science, chemistry, physics, biology, English, essay Writing, literacy, numeracy, study, research and summary skills, and SOSE. Tutoring can be an invaluable experience for a student. One to one support deepens and develops the understanding and skills that will carry a student forward, on to future endeavours. Based on their experience and knowledge, Canberra Tutoring assess the student's needs and choose an appropriate strategy. This is an ongoing process that helps build confidence and motivation. Canberra tutors are qualified teachers, university graduates or university students undertaking study in related disciplines. All tutors are interviewed, well qualified and experienced and have completed a Working With Vulnerable People check. All tutoring involves a degree of mentoring. It can also be the main focus, providing general support, guidance, encouragement and help to facilitate whatever is required, especially at the college and university level. They also offer on-line tutoring, which can increase the range of tutors available to you, as well as convenience. This is particularly suited to mentoring, English and language tutoring.
