Fabric Manufacturer in Adelaide, SA We have been servicing South Australia for over 20 years, catering for all industries ranging from aged care to hotels to restaurants. We cater for all industries ranging from aged care to hotels to restaurants and are able to handle all quantities. All deliveries and pickups are assured with the dedicated team of drivers exclusive to SA Linen Service running a comprehensive range of vehicles. Jim Gatis and John Solomos founded SA Linen Service in 1993 with one simple goal - setting a new benchmark for service. It had to be about personal service. With literally a lifelong working history in both the laundry and hospitality industries, they knew that personal service was a distinction that would help set a new benchmark. The ability to give your word and deliver that promise is a discipline born of taking ultimate responsibility, throughout your life. As a result, Jim and John regularly researched industry innovation and sort partnership with the best in the industry. The system established over the years enables complete tracking & control of every process throughout SA Linen Service. The outcome is an environmentally friendly approach to every stage, energy efficiency, and chemical control. Both of our founders are first generation Australians who have

of respect born of responsibility, discipline, and passion for striving to be the best in any of their endeavours. This has made our company the go-to linen service for a lot of other enterprises, hospitals and hotels.
