Surveyor in Sydney NSW This Penrith-based surveying company services the Sydney metropolitan and Lower Blue Mountains areas. CAD Consulting professional handles many aspects of surveying including contours, pegouts, identification surveys, and subdivision plans. They have been successfully operating for more than sixteen years with clients ranging from private individuals to large corporations. Surveying services include detail surveys, house and building construction surveys, and plan preparations for subdivisions. Due to the nature of the industry CAD CONSULTING has established a number of business relationships. CAD Consulting is member of the Consulting Surveyors of New South Wales, the Institution of Surveyors NSW Inc., Professional Surveyors Occupational Association, and Penrith Valley Chamber of Commerce.
