Driving School in Mount Gambier, SAWe offer training and assessment for anyone who wants to upgrade or gain a heavy vehicle licence. L.I.T.A. Training offers Nationally Accredited Competency based training and assessment for those considering a career in the transport industry. The training covers a number of topics including, but not limited to: Introduction to the vehicle, Start up & shut down procedures, Gear changing, Up/Down hill driving procedures, Reversing, Safe driving strategies, Coupling trailer to prime mover and Uncouple trailer from prime mover. We offer Medium Rigid (MR) Training & Heavy Combination (HC) Training. Your training can be done by means of competency based training that is completed using a log book or vehicle on road testing (VORT). Our accredited trainers and assessors will determine how much time you require for training subject to the skills and knowledge that you already have prior to assessment. We now conduct Nationally Accredited Forklift Training Courses and Assessment. The course is undertaken over two days and consists of both theory and practical training followed by a formal assessment. The classroom component will cover a range of topics including: Safety procedures, Fork capacity, Pivot points, Load rating, Longitudinal and lateral stability and Centre of gravity.
