Concrete and Cement in Port Pirie, SA In Australia, Holcim has been delivering construction materials since 1901. Originally serving the industry under the well-known Readymix and Humes brands, Holcim now continues to supply products including aggregate and sand, concrete, concrete pipe and products. Holcim operates right across the Australian continent supplying concrete from a network of more than 200 concrete plants, 900 mixer trucks and mobile and on site facilities. Our 88 quarry operations provide consistent, quality products for a diverse range of customers and applications. Our contracting business services serve major mining and infrastructure projects. Premixed concrete formed from cement, aggregates, additives and water, mixed are delivered in specially designed transit mixers. We offer an extensive array of premix products designed to achieve specific properties based on their application, transport and construction requirements. The quarry products available from our operations throughout Australia include rail ballast, aggregates, gravels, road pavement materials manufactured and natural sands, products essential to building and maintaining our modern communities. Our mobile and on-site batching operations service major projects and remote rural communities. Holcim provides an extensive range of technical and testing services backed by laboratory facilities in all major centres. Our contracting operations include mobile crushing, screening and quarrying equipment - giving up to 100% productivity
