Construction services in Picton, WA
Picton Civil has taken over the operations side of JW Cross & Sons. Combined the businesses have been in the earthmoving and plant hire business in the Bunbury region of Western Australia since 1968. Picton Civil specializes in civil earthworks, wet & dry plant hire, demolition and asbestos removal. We provide services to a wide range of clientele; from individuals and small business to large scale industry and mining projects. Our customer focused staff can cater for individual requirements giving a high quality of service and workmanship. With our large diverse fleet of quality machinery we are able to provide for a great variety of tasks to all of our customers. These include such work as site preparations, demolitions, drainage, asbestos removal, trenching, hard stand construction, pathways, construction & hot mixing carparks and roads, dam building or cleaning, house pads, gravel, hot mix or limestone driveways. Picton Civil maintain a high level of safety standards in our work places. This is important as much of our work is carried out in areas where high standards of accreditation are required like mine sites. All our plant operators are accredited with national operator certificates of competency and white cards. All employees are screened and we have an ongoing training program.
