Funeral Services in Perth, WA At Bowra & O'Dea we provide a range of options that allow you and your family to tailor the funeral to suit your personal, cultural and religious requirements. If you would like a detailed explanation of costs, or have any special requirements for a funeral service, please don't hesitate to call us. Today, the O'Dea family proudly continues that tradition, still deeply involved in the day-to-day organization of the company. We provide a sensitive, individualized family service and pride ourselves on our ability to guide families through the arrangements necessary to create a loving and final tribute. We plant a young tree as a lasting and loving memorial in the hope that it may help your healing process. We see the planting of trees as a symbolic act: one that represents rebirth and the cycle of life. You can be confident that as your tree grows (as part of a grove), it will protect and bring natural beauty to the Western Australian countryside. Native trees are planted in areas that need rejuvenation and where they will make a positive impact on the environment. In essence, the trees are bringing new life. Since the inception of this unique and free service in 1995, we've sponsored planting of over 2.5 million trees in conjunction with the Western Australian branch of Men of Trees (an international non-profit society for the planting and protection of trees).

trees are being used for environmental re-vegetation purposes, so they are planned and planted to re-grow and enhance the natural ecology. The Memorial Groves can be used as a special place to mark your loved one, though we cannot give you the exact individual tree location, we can provide you with a map of the Memorial Grove in which your tree has been planted.
