Concrete & Cement in Mandurah, WAMJB Industries specialises in offering the WA Civil Construction Industry Quality pipes & Concrete at a competitive rate. Established in 2005 as an Australian private company, MJB Industries Pty Ltd has built a reputation as a supplier of choice for many shires, contractors and farmers throughout the South West of Western Australia. From modest beginnings, MJB has grown and diversified into a large enterprise which has the ability to produce a large range of products on a daily basis. We manufacture a comprehensive range of civil engineering precast products including: Sump covers for road drainage and stormwater, Manhole access covers, Septic & leach drain products, Cattle troughs, Marker posts, Parking bay wheel stops, Bollards, Concrete encased I/O bends, Cast iron products in concrete surrounds, Transition slabs, Headwalls. MJB has an in house load testing unit along with the relevant procedures to ensure that the items produced meet the criteria set for concrete pipes as per Australian Standard - AS3725: Loads on buried concrete pipes. Due to the size of the operation and size of the workshop MJB has the ability to produce over 150 pipes per day. MJB Industries specialises in offering the WA civil construction industry quality pipes and concrete components at a competitive rate while making the ordering and delivery process as smooth and effective as possible giving a high degree of customer service to our clients.
