Water Based Sealers(WBS) is a product and specialised application tool manufacturer. We sell Product, Application Training, and our unique application tool the CSU(Commercial Sealing Unit) which has become a Game Changer in the application process, and is the new weapon that identifies a Certified Pro-Seal 896 Applicator. WBS Pty Ltd. has developed a new way to Stain-Proof new concrete with a sealing system that allows new concrete to be full sealed and stain-proofed straight away, as soon as the concrete is hard enough to walk on. Our Advanced Waterbased Technology now enables us to use evaporating moisture within the concrete to our application advantage. Visit our website for more info:
