Café in Ballarat, VIC Tucked into Ballarat's historic Webster Street, be sure to drop by Webster's Market and Café for an artistically presented plate of gourmet delights and fine roasted coffee in the heart of this country city. Homed inside a charming renovated heritage corner store, Webster's feels inviting and warm with a modern look inside amassed by way of dark polished timbers and matte black finishes, while outside offers a sunny casual dining spot to enjoy refreshing drinks in hot weather. Neighborhood locals return to enjoy Industry Beans coffee alongside dishes overflowing with speciality produce such as Figs & Honey, with roasted figs, goat's cheese mousse, walnuts, prosciutto and honey or an intriguing meal of cauliflower textures spruced with grapes, pine nuts, raisins, caper salsa and quinoa. Our customers can enjoy lunch in the lovely outdoor dining area where the staff is always pleasant and helpful. This little cafe is in a delightful neighbourhood setting and parking is easy. Our clients always are thrilled with our meals (the pulled lamb as a roasted portion with garlic, onion, artichoke and quail egg, complemented with aioli and green shoots is one of our specialities!).
