At Inspire, kids don't just do their homework – they also participate in Inspire's unique Learn and Grow tuition program. When joining Inspire each child is assessed to establish strengths and determine areas that can be improved and an appropriate Learn and Grow program is prepared for them. Learn and Grow has been developed by a team of teachers and it is designed to provide kids with valuable revision and extension work. Unlike classroom learning, Learn and Grow allows kids to work at their own pace and this gives them time to master the lesson before moving on. This approach develops confidence and a solid foundation for future learning. We know that many kids find homework a struggle and learning a chore. Our goal is to build confidence in kids and ignite a passion for learning that will stay with them for life. Let your kids discover Picasso, grow some herbs, do some craft and be creative. At Inspire we aim to do just that – inspire kids! We run lots of fun activities that let them explore their creativity, develop new skills and learn. Whether it's a treasure hunt, a visit from a rabbit, discovering origami or a quick cooking class – there's something that will interest everyone. There's no i-pads and no lap tops but there's lots of educational games and fun activities. There's incursions and the occasional excursion. After all ...why should kids have to wait until the holidays to have all the fun? At Inspire, we have fun everyday!
