Australia

Phone: 1300789169

Building dilapidation surveys and reports is our business. As specialists in dilapidation reports we are able to provide you with reasonable fees for our work. To keep the cutting edge of his profession, our team attends regular seminars on various construction matters, receiving the most up to date information on building inspection services. We are highly trained and experienced in all facets of building construction and building defect identification. We are able to provide a fast and effective service to our clients. We offer a free quotation prior to any work being carried out. All major authorities accept our dilapidation reports. Reports can be provided electronically or in hard copy. We cover all states of Australia. Building Dilapidations can carry out your inspection quickly and efficiently. We will respond to your enquiry immediately. You will have your report in your hands several days after we gain access to the property to carry out our inspection.
