Sherpa's products are all designed to perform to your particular requirements. We use only the right fabrics applied in the best possible ways, so that our products provide long term all round quality. Sherpa is an Australian owned & domiciled brand of clothing for the outdoors. Sherpa products are available at a large number of retailers throughout Australia. See our list of Stockists for details.

Comfort is extremely important at Sherpa. Our products are often worn for days on end in extreme conditions and they must remain comfortable without any decrease in performance. Of course, great performance and comfort both come from good design.
