

Redback Conferencing

Level 11, 301 George Street
Sydney, NSW 2000
Australia

Phone: 1800 733 416

We are here to be recognised as the market leader in our field. Our BHAG (Big Hairy Audacious Goal) is to help 5,000,000 Aussies meet at a distance. Through exceptional Customer Service, innovative technologies and a clear vision, we are well on our way to achieving this goal! From humble beginnings in a shared Sydney CBD office to servicing some of Australia's largest organisations, it's been one crazy ride and it doesn't appear to be slowing down anytime soon! In early 2007, after selling a successful Canadian teleconferencing business, Jeff Downs saw a gap in the Australian market for a local conferencing provider that offered fully managed online services with a difference – he simply packed up his family and started all over again. It didn't take long before his good friend, Peter Matsumoto, the technical genius, was on board with the idea.

Redback Conferencing is an Australian company that dramatically improves the way organisations meet, present and collaborate at a distance. We search the world for the most progressive online collaboration technologies. We then enhance and simplify them, host them down under, surround them with incredible customer support and then deliver them to thousands of organisations throughout Australia and New Zealand. Why not allow us to demonstrate the Redback difference today?
