Beauty Salon in Richmond, NSW Established in 1994 and more than 20 years experience in the industry, we understand our client's need for convenience, efficiency, quality without compromising on great service. Our "Express Bar" areas are ideal for busy working women moms. Whether you require hair removal, skin treatments, brow styling, lashes or makeup, the "Express Bar" provides quick treatments without compromising on quality. We offer complete treatments for lash and brows, as well as our renowned sugary hair removal. The Sugaring hair removal is a natural, effective and even edible Hair removal treatment eliminating unsightly growth for a lengthen of time. Waxing products for legs, faces and bodies adhere to skin cells. This is one of the major differences between sugaring and waxing legs and other more sensitive areas. Wax products are made of resins which adhere to skin cells on legs and bodies. Because wax sticks to any surface it is applied to, pulling it away causes unwarranted discomfort. Alexandria Professional sugaring products never adhere to live skin cells on bodies, faces, or legs. Therefore, when it is removed, it only gently exfoliates dead skin cells, leaving behind freshened skin on legs, bodies, and faces. Additionally, because sugaring paste is all natural and water soluble, it can be easily rinsed away
