Medical Centre in Sale, VIC Inglis Medical Centre is a state of the art medical facility which combines old fashioned family medical care with new age technology. This concept clinic, which has been created by General Practitioners with the emphasis on professional medical care, combined with a friendly and relaxed family atmosphere. The building and practice is owned by the General Practitioners with an emphasis on quality and optimal care of the Sale community and surrounding areas. We have onsite Pathology, Pharmacy and a well equipped, physiotherapy/rehabilitation centre. The team at Inglis Medical Centre works very hard on a coordinated approach to 'Total Health Care'. We are proactive in advising and educating patients about the services available to them, within the medical centre as well as in the community where appropriate. We have a dedicated team of highly experienced doctors, clinical nurses, friendly practice staff, complimented by team of allied health professionals and psychologist as well as visiting psychiatrist. Every member of the Inglis Medical Centre team is valued for what they can bring to our commitment to the patient receiving the best and most well rounded care we can offer.
