School in Sidney, NSW Every parent wants the best for their child, especially when choosing a school. We all want our children to be content in their learning environment, developing friendships and progressing academically. We believe the key difference between our school and other educational institutions is the nurturing environment in which our children learn and grow. It is geared towards the child's specific needs, their natural desire to learn and most importantly allowing them to enjoy the process! The Sydney Montessori School is a co-educational, non-denominational school for children ages 0 - 16. Children learn through the Montessori curriculum while attaining the educational outcomes prescribed by the NSW Board of Studies Teaching and Educational Standards (BOSTES) syllabuses. The school has been registered and accredited by BOSTES. The Montessori curriculum has been scientifically researched and developed over many years. It continues to evolve and adapt to meet the changing needs of society. We utilise tactile, hands-on learning thus engaging both the mind and the body. Specialised equipment unique to the Montessori approach of "help me to do it for myself" facilitates the child to learn while also encouraging and challenging them to continue learning. The Montessori curriculum goes into great detail so students are able to study subject areas to the depth to which they are interested and able. This allows for us to cater to children of all levels of ability.
