Cafe in Thuringowa, QLD Located just outside Zambrero, this small place has one of the best coffees in Townsville. Just ask any of our customers! The owner David Scott had always wanted to serve great coffee as well as supporting other businesses by sourcing their coffee beans from Bounce Coffee. David wanted to use Bounce coffee beans because they provide a good solid blend with one of the best flavours that fulfills our customers wants. We want to make sure our customers get everything that they want, all in one place! Come visit us and taste our delicious breakfast burritos, sip from our ice cold smoothie or have a hearty breakfast with a fresh scone with jam and cream (just after your morning run!). We serve all of our coffee in BioCups, that are in-line with our organic, local vibes.
