Phone: 03 5222 5614

Graphic Design in Geelong, VIC Founded by Paul in 2004, Paul Kelly Creative is truly an “in-house” studio. Now a team of six, there is always someone at PKC who can meet your creative needs, whether it's producing branding, graphic design, print and project management, web design and development, digital marketing & social media, e-commerce web development, WordPress & Joomla web hosting, or Search Engine Optimisation (SEO) packages. Paul Kelly Creative is an interactive creative agency dedicated to making ideas transpire into reality. The team at PKC implement solutions to bridge your online and offline communications, crafting a completely integrated package. Would you like to know more about our Organic SEO services? We'd love to show you what we can do. Creative director Paul Kelly has over 20 years experience in the pre-press and print industry. He has secured a team of innovative proactive and skilled designers, web developers and strategists to ensure you receive the absolute best quality of work. The skills and commitment the PKC team offer creates high impact, effective and lasting design communication products for your business. PKC's designers embrace each job with the mindset that "no client or project is alike". Every brief is approached with a unique perspective from research through to printed product. PKC can create pure, unique designs that identify and enhance your company's brand, whilst ensuring it communicates with your audience. We understand and will assist in persuading, engaging, informing and motivating your target audience with dynamic graphic designs through concept development, illustration, publication design, packaging and promotion, advertising, signage and so much more.
