Primary School in Harrison, ACT Harrison School is a Preschool to Year 10 School with over 1400 students. The school aims to provide a contemporary environment that reflects a 21st-century learning experience for our students and community. Harrison School operates with a values and belief system that is reflected in the Code of Practice for the school community. Our key values are Respect, Inclusion, Teamwork, Resilience, Integrity and Endeavour. Environmentally sustainable design features have been incorporated in the school. Specifically, rainwater is collected in large underground rainwater tanks for use in the school, the installation of solar panels to generate electricity and inbuilt sensors to manage the heating, cooling and lighting. Harrison School provides flexible, modern, high quality and environmentally sustainable educational facilities that support the learning of the surrounding growing community. They have a strong focus on E-learning and use of mobile devices. A blended learning program using an on-line student management system supports student centred approaches and flexible pathways for students. Harrison School connects with the local, national and international community. We have a sister school in Nara, Japan and Beijing, China. We have specialists programs in music (band Yr 5-10), performing and creative arts, IT and robotics, food technology, languages and horticulture.
