School in Maitland, NSW Maitland Public School is a co-educational primary school offering classes from kindergarten through to Year 6. A variety of co-curricular activities and programs are available to meet the needs of every student. Maitland Public School is committed to providing opportunities for students to consolidate the traditional basic skills in a safe, caring and supportive environment, as well as participate in stimulating enrichment programs. Staff, in partnership with parents, aim to provide quality instruction in the six key learning areas, with literacy and numeracy forming the basis of all learning programs. We strive to achieve our motto - "preparing children for life". Helping out at school is a great way to get involved in your child's education and to get to know the school staff and other parents. Research shows that children benefit when their parents are actively involved in their education and school life. Keep an eye on the school newsletter for opportunities to help out at school and ask your child's teacher if you are interested in helping in the classroom. You will be required to complete a working with children check beforehand.
